### **Company Summary**

F-Wave™ is Reinventing Residential Roofing® and will produce an innovative line of products for the steep-slope roofing market. Our products represent a breakthrough in manufacturing technology, material science, and intelligent product design. We are creating a fast-growing company with Core Values that reflect the character of our leadership team. We intend to create advancement and career opportunities for those who share our values, and enjoy working in a fast-paced, customer-centric environment.

### **Position Summary**

F-Wave is seeking a Compounding Operator for its Burlison, TX facility. This is a key position that will manage the supply and inventory of raw materials for the extrusion end. This position will work closely with the Extrusion Operator and engineering team. Direct accountabilities are safe and efficient management of raw materials for the extrusion end and to have the ability to become proficient on operation of the extrusion equipment.

### **Role & Responsibilities –**

- Loads raw materials into proper systems to keep all extruders supplied with required materials.
- Manages and grinds all scrap and line trim; manages inventory of reclaimed materials.
- Pulls raw materials from inventory and properly maintains all inventory transactions.
- Drains and cleans blending hoppers and bulk bag unloading systems during product changeovers.
- Responsible for maintenance of dust collection systems.
- Assists in maintenance activities of the extrusion line and processing equipment.
- Works with the extrusion team to ensure proper material formulation.
- Perform necessary quality assurance checks and test verifications.
- Cross-train with Extrusion Operator on assigned roles and responsibilities.
- Must ensure a high housekeeping standard is maintained in areas of responsibility and safety standards are adhered to.

### **Minimum Requirements -**

- High school diploma or equivalent is required
- Background in manufacturing and strong mechanical aptitude; plastics background preferred
- Operate a forklift
- Ability to climb stairs routinely and lift 50 lbs.
- Work 12 hour shifts on either days or nights.
