

**Position Title:** Multi – Craft Technician

**Pay Range:** Market Competitive - Dependent on Experience.

**Overtime Eligible:** Yes

**Employee Benefits:** Healthcare (Medical, Dental, Vision) Plan, Paid Vacation & Holidays, 401K Match, Basic Life Insurance, and Employee Assistance Program

### **Company Summary**

F-Wave™ is Reinventing Residential Roofing® and will produce an innovative line of products for the steep-slope roofing market. Our products represent a breakthrough in manufacturing technology, material science, and intelligent product design. We are creating a fast-growing company with Core Values that reflect the character of our leadership team. We intend to create advancement and career opportunities for those who share our values, and enjoy working in a fast-paced, customer-centric environment.

### **Position Summary**

F-Wave is seeking a Multi-Craft Technician for its Burlison, TX facility. This position will maintain and repair mechanical and electrical equipment down to the sub-assembly and component level, as well as assist with implementation of machine modifications and upgrades to optimize plant efficiencies. Accountabilities are tied directly to safety, equipment uptime, and maintenance costs.

### **Role & Responsibilities –**

- Provide routine troubleshooting assistance on mechanical and electrical issues.
- Conduct routine condition based audits of manufacturing equipment and report findings.
- Perform corrective repairs to equipment during unplanned downtime events.
- Plan and execute work during planned downtime events.
- Recommend and execute modifications necessary to improve equipment efficiency and uptime.
- Fabricate parts or fixtures that will go into the manufacturing process.
- Demonstrate a high sense of urgency to correct safety and operational issues.
- Actively participate in efforts to develop safety and maintenance management systems.
- Must work in a safe manner to avoid injury to self and co-workers.
- Assist Production, Engineering, and Leadership teams as needed during ongoing operations.

### **Minimum Requirements -**

- High school diploma or equivalent.
- Minimum of 5 years' experience in an industrial maintenance environment
- Experience performing preventative, predictive, and corrective maintenance work.
- Strong mechanical aptitude required, as well as basic experience with electrical controls.
- Ability to cut and weld, as well as use basic shop machining equipment.
- Excellent troubleshooting skills.
- Very detail oriented and able to perform a diverse range of tasks.
- Operate a forklift
- Ability to climb stairs and ladders routinely and lift 50 lbs.
- Work 12 hour shifts on either days or nights.
- Effective PC skills with MS Word, Excel, Outlook, and various CMMS systems.
