

**Position Title:** Packaging End Operator

**Pay Range:** Market Competitive - Dependent on Experience.

**Overtime Eligible:** Yes

**Employee Benefits:** Healthcare (Medical, Dental, Vision) Plan, Paid Vacation & Holidays, 401K Match, Basic Life Insurance, and Employee Assistance Program

### **Company Summary**

F-Wave™ is Reinventing Residential Roofing® and will produce an innovative line of products for the steep-slope roofing market. Our products represent a breakthrough in manufacturing technology, material science, and intelligent product design. We are creating a fast-growing company with Core Values that reflect the character of our leadership team. We intend to create advancement and career opportunities for those who share our values, and enjoy working in a fast-paced, customer-centric environment.

### **Position Summary**

F-Wave is seeking a Packaging End Operator for its Burlison, TX facility. This is a key position that will operate and maintain the equipment used to package our products. This position will work closely with the leadership and engineering team. Direct accountabilities are safe and efficient operator of conveying and packaging equipment with a strong focus on waste reduction.

### **Role & Responsibilities –**

- Oversee routine operations, maintenance, and set-up of packaging end equipment.
- Execute procedures for startup and shutdown of equipment.
- Correctly identify product recipes and run to product and process specifications and set points.
- Monitor key process variables throughout the shift, input product and process data, and monitor process data systems to assure consistent production and prevent process upsets.
- Perform necessary quality assurance checks and test verifications.
- Assist with troubleshooting and correction of non-conformances in the raw materials, process, and products.
- Assist extrusion end as necessary with operations tied to material changes, product changeovers, and ongoing operations.
- Contribute to process improvements and variation reduction; key focus on waste elimination and maximizing equipment uptime and efficiency.
- Assure safety standards are adhered to.
- Must maintain a high housekeeping standard in areas of responsibility.

### **Minimum Requirements -**

- High school diploma or equivalent is required
- Minimum of 2-3 years experience in a manufacturing environment; strong mechanical aptitude required.
- Operate a forklift
- Ability to climb stairs routinely and lift 50 lbs.
- Work 12 hour shifts on either days or nights.
